Profile

Computer Science student at NFC Institute of Engineering and Technology, Multan, focused on building mobile apps, web platforms, APIs, dashboards, and practical software products. Strong interest in Flutter, Firebase, React, Node.js, MongoDB, UI/UX, and clean product delivery.

Education

Bachelor's Degree in Computer Science

NFC Institute of Engineering and Technology, Multan | 2023 - Present

Pursuing Computer Science with focus on software development, UI/UX, mobile apps, web systems, databases, and modern technologies.

Intermediate

Muslim Group of Schools and Colleges | 2021 - 2022

Focused on pre-engineering studies with physics, chemistry, mathematics, and analytical thinking.

Matriculation

Muslim Group of Schools and Colleges | 2019 - 2020

Completed secondary education with a strong foundation in science and mathematics.

Projects

Rental Management System

Flutter, Firebase, Node.js, MongoDB

Rental operations app with dashboards, properties, tenants, rent payments, bills, maintenance, leases, API integration, and exhibition presentation.

Campus Helper App

Flutter, Firebase, Node.js, MongoDB

Campus assistant with authentication, chat, marketplace, cafeteria, library, exams, events, notifications, admin tools, and backend support.

Parallel Performance Analyzer

Python, Streamlit, Plotly, NumPy

Analytics app evaluating Prefix Sum and Monte Carlo Integration performance with charts, experiments, and report-style outputs.

ProCompiler

Python, Flask, Compiler Design

Compiler construction project with web interface, lexer/parser logic for a C-like language, and documentation assets.

3D Unity Beginner Game

Unity, C#

Unity platformer with player movement, jumping, coin collection, moving platforms, enemy collision, levels, and simple animations.

Exhibition

Presented the Rental Management System at an exhibition in Air University Multan, demonstrating the app workflow, dashboard screens, poster context, and rental operations use case to visitors and evaluators.

Skills

Flutter	Dart	React	Next.js	Node.js
Express	Firebase	MongoDB	Python	Streamlit
Plotly	Unity	C#	Figma	REST APIs

Certificates

Advanced Python Programming and Applications

NAVTTTC | A+ Grade | 26 Feb 2024 - 25 May 2024
Prime Minister's Youth Skills Development Program at NFC Institute of Engineering and Technology Multan.

Class Representative Award Certificate

NFC Institute of Engineering and Technology Multan | Sept 2024 - June 2025
Awarded for exceptional service as class representative of the Computer Science section.

Career Goal

Looking for internships, freelance opportunities, startup projects, and software collaborations where I can ship useful products and grow as a full stack and mobile app developer.
